

# Mobile Literacy: Your Guide to Earning with **zomato**

Simple Steps to Master  
Your Smartphone

# What We Will Learn Today

## Phone Basics

Internet, Volume, and  
Battery

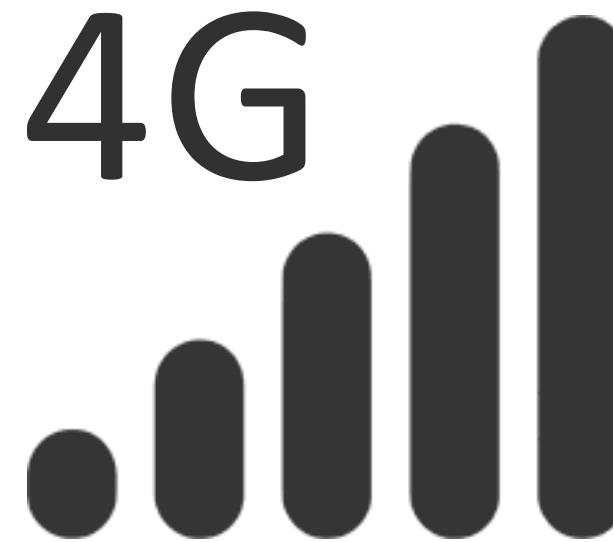

## Navigation Skills

Using Maps to find the  
customer (The Essential Skill)

## The App

Accepting orders and  
checking earnings

# Sub-Module 1: Getting Your Phone Ready

**Data/Internet**  
Must be **ON** in vivid  
Green to receive  
**orders**.

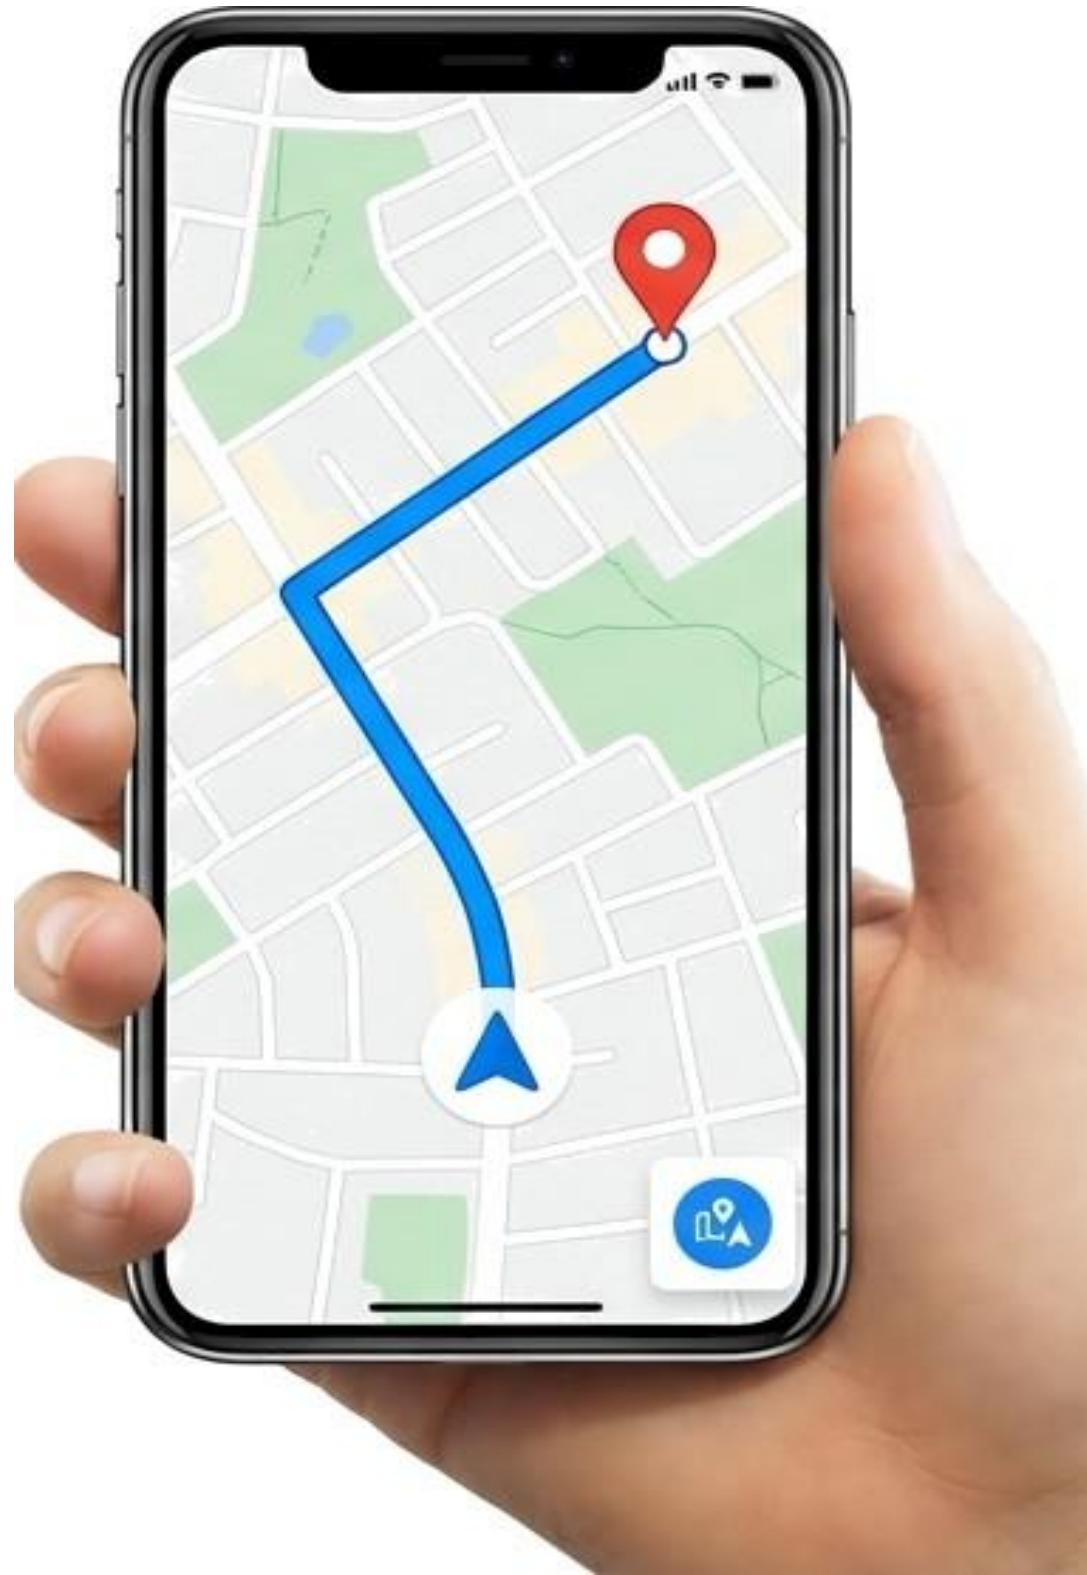

**Location (GPS)**  
Must be **ON** in vivid  
Green so the **map**  
works.

**Volume**  
Turn it **UP** in vivid  
Green to hear  
**notifications**.

# Sub-Module 2: Focus Topic: Mastering Maps & Navigation

**Step 1:** Click the 'Map' icon when you accept an order.

**Step 2:** Follow the **blue line** to the restaurant or customer.

**Step 3:** If you are lost, stop safely and call the customer.

# Sub-Module 3: Accepting Orders & Checking Earnings

1. Accept the Order: When the phone rings, look for the Green Button. Swipe or Tap to accept immediately.

2. Update Your Status: Always click 'Arrived' when you reach the restaurant and 'Delivered' when you reach the customer.

3. Check Your Pay: Click the Money Bag icon on the home screen to see your daily payouts and incentives.

# Why We Focus on Navigation

We selected '**Navigation**' as the most critical topic because it is the biggest barrier for new partners with limited digital skills. Even if a partner can accept an order, failing to locate the customer leads to anxiety, delays, and lost income. Mastering maps provides immediate confidence and ensures the successful completion of deliveries.

# Ready to Start?

- Check your internet.
- Trust the map.
- Stay safe.

**Next Step**

Watch the 2-minute animated video on 'How to Use Maps' for a live demo.

You are ready to Deliver!
